

Ilx 2-Place

The Ilx is the world's most popular 2-place, portable intercom. The modular design offers expansion capability to the backseat if needed.

- Expandable to 4-place portable with optional SR-4 expansion module
- Auxiliary inputs and outputs for music or recording flight information
- Low-battery indicator and pilot isolate
- Uses aircraft power or 9-volt battery
- Two-year warranty

403 with Jacks

The 403 is a 6-place panel mount, voice-activated stereo intercom with instant music muting and pilot isolate. Easy to use and designed to fit almost anywhere in the panel.

- 3-position transmit capability
- Rectangular faceplate can be mounted horizontally or vertically
- Alternate faceplate for 2.25" instrument panel mount
- 5" long x 2.4" wide x 1.2" high
- Two-year warranty

Switches provided in installation kit allow individual headphone positions to select either stereo or mono mode, allowing the use of monaural headsets.

403mc with Jacks

Superior communication in a compact package, our 403mc is the smallest 4-place, voice-activated panel mount in the general aviation market. Installs virtually anywhere in the panel for efficient use of limited space.

- Pilot isolate
- Adjustable volume and squelch controls
- 2-position transmit capability
- Auxiliary input for music or alerts
- Includes mic and phone jacks
- 2.65" long x 2.375" wide x 1" high
- Rectangular faceplate can be mounted horizontally or vertically
- Two-year warranty

403LSA

403LSA is simple to operate and easy to use, just like the Light Sport Aircraft (LSA). The 2-place stereo, voice-activated intercom enhances the fun of flying, as well as safety, by optimizing communication clarity. The 403LSA fits nicely with the LSA objective of making flying affordable for everyone.

- 2-place stereo, voice-activated intercom based on the same platform as Flightcom's classic 403
- Auxiliary input with auto-muting to prevent missing critical radio or intercom communication
- 2-position, radio transmit capability, allows both seats to communicate via the radio
- Two-year warranty

General AVIATION

HEADSETS

Denali®

Flightcom's Denali is an extremely lightweight headset that offers exceptional performance and outstanding comfort. The Denali is engineered to fit unlike any other aviation headset, providing excellent passive and active noise attenuation, a secure and comfortable fit, and extremely reliable performance.

- High impact resilient fiber reinforced nylon ABS for lasting durability
- Protein leather ear seals and headpad
- Canted domes ensure an excellent fit
- Low side force
- In-line, "drop-and-go" 9-volt battery or panel power
- Stereo/mono switchable
- Weighs 12.9 ounces for ANR model; 11.0 ounces for passive
- Includes carrying case and mic muff
- Three-year warranty

Sure Power System™ (SPS)

In addition to the Denali's soft and comfortable protein leather ear seals and headpad, our Active Noise Reduction (ANR) model also comes factory direct with SPS, a digital power management circuit. The SPS conserves battery life by shutting off the ANR circuit when not in use.

- Automatic shut-off when audio is inactive for 28 minutes
- Full passive performance is maintained when ANR circuit is off

Classic ANR

The Classic ANR is built with comfort features not found in similar headsets. With overstuffed Confor® foam ear seals and larger than normal headband, the classic aviation style provides extended comfort and performance.

- Precision flex boom with noise canceling electret microphone
- Dual-volume controls allow for independent volume adjustment in each ear dome
- Chrome headband with a washable polar-fleece headpad
- Stereo/mono switch ensures audio compatibility
- In-line, "drop-and-go" 9-volt battery
- Provides an additional 14-18dB noise attenuation at key low frequencies
- Mic muff and carrying case included
- Weighs 17.9 oz.
- Three-year warranty

4DLX Classic

The 4DLX Classic is a general aviation style headset at a price to fit any budget. The dual volume controls allow for independent volume adjustment in each ear dome and the precision flex boom, with noise canceling electret microphone, provides exact positioning.

- Wide, comfortable air-pillow headpad
- Combined liquid and foam ear seals
- Stereo/mono switchable
- NRR 24dB
- Weighs 16.8 ounces
- Mic muff and cloth ear seal covers included
- Three-year warranty

4DX Classic

The 4DX Classic is an entry-level headset with classic Flightcom ruggedness. With an easy-to-position wire articulated boom and a ventilated foam rubber headpad and combined liquid and foam ear seals, the 4DX Classic is comfortable and affordable.

- Noise canceling electret microphone
- Single-volume control
- Stereo/mono switchable
- NRR 24dB
- Weighs 16.9 oz.
- Mic muff and cloth ear seal covers included
- Three-year warranty

5DX Classic

A conventional general aviation style headset, the 5DX Classic ensures long-life ruggedness. The dual volumecontrols allow for independent volume adjustment in each ear dome. The precision flex boom, with noise canceling electret microphone, provides exact positioning.

- Washable polar-fleece headpad and soft silicone gel ear seals provide comfort
- Stereo/mono switch ensures audio compatibility
- NRR 22dB
- Weighs 17.9 oz.
- Mic muff and cloth ear seal covers included
- Three-year warranty

F20

Excellent for turbine, airline or any use that has limited noise, the F20 delivers excellent stereo sound. And the flexible headband makes this extremely lightweight headset very comfortable.

- Flexible mic boom
- Electret microphone
- Cloth over foam ear pads
- Stereo/mono switch ensures audio compatibility
- Includes NRR 30dB ear plugs
- Weighs 4.6 ounces
- Three-year warranty

4LX Listen Only

The 4LX is similar to the 4DX headset with a ventilated, cushioned headpad.

- Single-volume control
- Coil cord with mono 1/4" headphone plug
- NRR 24dB
- Cloth ear seal covers included
- Three-year warranty
