Flightcom Receives Largest Model E-13ANR Military Aviation Headset Order

Ongoing program provides high-performance active noise reduction communication headsets at exceptional value to military

November 1, 2012 – Portland, Ore. – Flightcom, a leader in communication solutions for aviation, today announced that the United States Defense Logistics Agency (DLA) has awarded the largest order to-date for [E-13ANR aviation headsets](#). Widely deployed for use on C-5, KC-135, C-130, and other airframes, the E-13ANR headset is in demand for excellent passive and active noise reduction (ANR), long-wearing comfort, durability, and extra features such as auxiliary inputs and long ANR battery life. The E-13 program has been running for over eight years, supplying superbly engineered and affordable communication products to the military.

“The ongoing success of the Flightcom E-13 program illustrates that high-performance equipment carefully engineered for durability and value is welcomed by the military in these times of budget constraints,” said Tim O’Brien, Flightcom director of sales. “The rugged E-13ANR and its [E-13 Passive Noise Reduction](#) cousin are engineered for flight use, with other Flightcom headsets available for use in [mobile and other ground applications](#).”

Beyond flight headsets, Flightcom team communication solutions also deliver clear and secure audio communication for military teams in other challenging environments. [Portable wireless headset systems](#) protect hearing and improve effectiveness for aviation ground support personnel performing aircraft movement, deicing, loadmaster, and maintenance operations. Wired and wireless Flightcom headset systems ensure constant full-duplex team communications in and around [vehicles on the ground](#) and on [boats and ships](#). All Flightcom communication systems can be easily interfaced to one or more mobile or portable radios for extended communications with other teams and/or command and control centers.

About Flightcom

Flightcom is the leading manufacturer and worldwide supplier of rugged wireless team communication solutions for military and aviation environments. The company supports hundreds of thousands of pilots, commercial and military flight crews, and ground support personnel with headsets and intercoms that deliver clear communications, even under the most challenging circumstances. Flightcom systems offer full-duplex hands-free communication with a choice of wired or wireless noise-reduction headsets, general aviation headsets, and flight or portable wireless intercoms. All Flightcom commercial systems qualify for its exclusive ComCare Service Programs, which provide up to five years of extended protection and expedited customer care -- the longest in the industry. Flightcom is a subsidiary of Sonetics Corporation. Visit www.flightcom.net or call (800) 432-4342 for more information.
